

Online Shopping Network (OSN) - New Account Setup

* Some Online Shopping Networks require an account setup fee

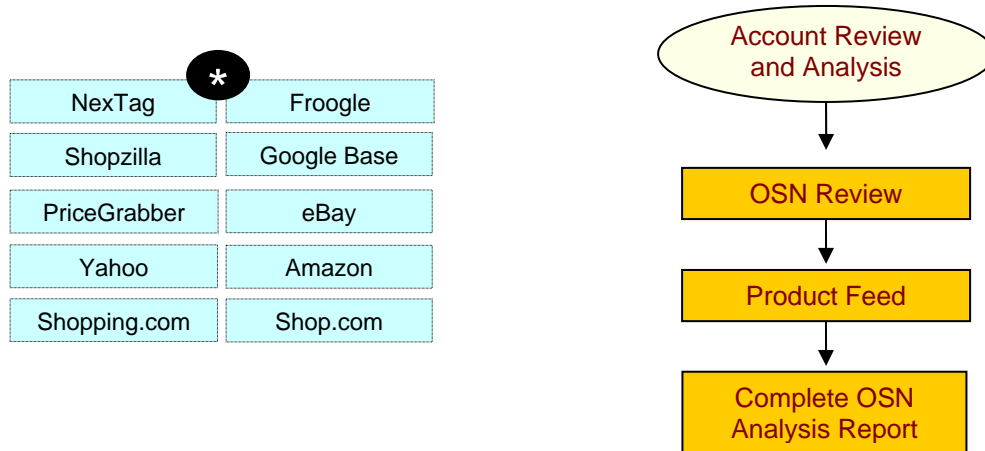

>>> New Account Setup

With OSN (Online Shopping Networks), if you need a new account, you will have to go through the following process:

1. Through **Product Research**, we will research your business's products. We will then set up an account with the eight largest online shopping networks.
2. The idea of **Campaign Research** is to provide an adequate description and title to groups of keywords related to the product.
3. In **Product Feed Setup**, your products will be combined into a feed and sent to these various online shopping networks. Through these networks, your product will be given maximum exposure to every potential customer.
4. We register your products via **OSN Registration**. Your products will then be available on online shopping networks which can help you generate a significant part of your revenue.

Online Shopping Network (OSN) - Current Account Review

>>> Current Account Review

If you have a current account, we will implement the **Account Review and Analysis**, which consists of the following steps:

1. Through **OSN Review**, we will evaluate and see how your Online Shopping Networks are doing.
2. If they need improvement, we will update and use the **Product Feed** to expose your products to the networks.
3. We will then create a **Complete OSN Analysis Report** to appraise how your OSN is doing.
